

A unique swivel designed side-mounted tilt bar guarantees smooth responsive control.

Ergonomically designed to create refined lines with a light-omitting fit.

The reinforced louvers are engineered to allow for wider and taller panel capabilities while still maintaining a refined, contoured shape, providing an unimpeded view.

Frame options

- The strongest, most durable shutter available on the market.
- Low maintenance – easy to clear surface.
- Antistatic, non-toxic with a high humidity tolerance
- Will not sag, discolour, twist, warp, expand or contract like ordinary shutters
- Side mounted tilt rod that is also used as a handle
- Contour-designed louvers for tighter closure and better viewing
- Wider and taller shutters with the optional exclusive divider pivot
- Superior traditional paint finishes and modern-design metallic Brushed Aluminum and Champagne Anodized
- The best warranty – 15 year “common sense” warranty
